## “From Blocks to Bytes” Workshop on Block Coding

---

**Venue:** Research Lab, CSE Department

**Date:** 3rd October 2024

- Conducted By: [Dept. of Computer Science and Engineering](#)

# Program Brief

---

The "**From Blocks to Bytes**" workshop was organized by TACS for the first-year students of the CSE Department. The workshop was held on October 3rd, 2024 from 10:00 AM to 4:00 PM in the Research Lab of CSE Department. This interactive workshop served as an introduction to the fundamentals of block coding, providing students with a hands-on experience designed to build confidence and spark interest in coding.

Led by **Shahinsh P**, the Technical Lead of TACS, the session began with an overview of the principles of block coding, emphasizing how it serves as a stepping stone to more complex programming languages. Students were guided through various exercises that allowed them to experiment with logical problem-solving and creative thinking. The primary objective of the workshop was to make programming accessible and enjoyable for beginners, breaking down the initial barriers to learning coding and instilling confidence in the first-year students.

The "From Blocks to Bytes" workshop was a great success, achieving its aim of cultivating a foundational understanding and enthusiasm for coding among the new batch of students. TACS extends its gratitude to all participants and looks forward to continued engagement and collaboration with the new batch.

## Coordinators

1. Mrs. Rajeena M- Staff Coordinator
2. Mr. Ashmal M – Student Coordinator
