

MEA IEDC being the prime reputed cell among all well-known alliance in MEAEC conducted an IoT training session apart from students of MEAEC.

On 30th July 2019, our two well-known and good sounding executive committee members- Musharraf and Sirajudheen handled school-based oration for

the budding generations at Vettathur Higher Secondary School. The session continued with well-organized lectures based on Innovative

Entrepreneurship Development Cell (IEDC) and further on Kerala Start-up Mission (KSUM) provoking the young minds with efficient knowledge.

The session was purely focused on the mandatory knowledges regarding the same since the knowledge regarding start-

up missions and IEDC being little popular among the young generation, it was a challenging task to reach the facts into their minds

Being the best orators, the lecture session commenced with worthy feedbacks from the students and the authority.
